- E-mail to danai@pcsc.com
- Register online at:
<http://www.pcsc.com/productSupport/classRegistration.asp>

Class Description:

One of the primary purposes of the *Utilit-e Insight* Work Orders module in the past was to close work orders to CPR's for the rural electric cooperative. Early in 2008, PCS made significant enhancements to the Work Order module to allow a utility, other than a cooperative, to close work order cost to plant whether it is mass units using the Plant Assets or distinct individual assets using the Fixed Assets module. This webinar will cover both situations, as well as the ability to close a work order and expense any costs that may have been charged to a work in process account, rather than capitalizing those costs.

Prerequisite:

Utilit-e Insight – completed installation and implementation training.

Registration fee is included with the Annual Support Agreement.

Fill out this form and fax back to PCS at 712-263-8145 or send via mail – PCS - PO Box 116 – Denison, IA 51442
